

Onboarding

Welcome, engage and prepare your new hire

ONB²¹ – Onboarding puts you in control of your new employees' onboarding journey using mobile, tablet or desktop devices. With ONB²¹ - Onboarding, you can build lasting first impressions as you step your new hire through each part of the onboarding process. Video and document delivery help your employee succeed by explaining their role and where they fit in the organisation.

Automated workflows take care of vital administration tasks, such as gathering data. This reduced workload enables payroll and HR to focus on the warmth of the welcome. Progress tracking and reporting make certain you can measure and adjust onboarding journeys to maximise their effectiveness.

12 reasons why you should use ONB²¹ – Onboarding

1. Create positive impressions by welcoming, engaging and preparing your new hire.
2. Onboard your way with configurable journeys for different employee groups.
3. Tick every box by adding any ichris form to the onboarding task list.
4. Nail compliance by making critical forms mandatory; onboarding can't be completed until they are.
5. Automate everything, from communication to progress tracking and updating ichris.
6. Monitor performance via integrated reporting over onboarding outcomes.
7. Engage and induct employees in their role, responsibilities and company culture.
8. Ease the burden on HR & payroll thanks to powerful workflows.
9. Reduce the time required to maximise employee productivity.
10. Manage volume with predesigned templates, workflows and processes.
11. Ensure data integrity via digital collection of employee details.
12. Go green with digital onboarding to reduce consumption of paper, printers, postage, etc.
